Sanders Appoints J. Lance Wade to the San Diego Data Processing Corporation

San Diego – Mayor Sanders has appointed J. Lance Wade to serve on the Board of Directors of the San Diego Data Processing Corporation. This appointment does not require City Council confirmation.

Mr. Wade presently serves as the Director of Information Technology for the San Diego City Schools where he has managerial responsibility for maintaining all computer based business, financial and student information systems. He manages a multimillion dollar budget, 60 engineers and services for 200 sites. In addition, he is responsible for planning and coordinating all IT projects and IT upgrades as well as maintaining and operating the District's local and wide area network.

In his career, Mr. Wade has served as Manager for Public Services at KPMG Consulting, and as an Executive Officer in the U.S. Air Force serving in numerous posts including as Project Manager at the Naval Surface Warfare Center in Dahlgren, Virginia.

Mr. Wade, a resident of Council District 2 who resides in the community of Point Loma, holds an MBA from the University of West Florida and a BS degree from Brigham Young University. Mr. Wade will replace Mr. William Berryman whose term will expire on July 14, 2006 and who does not wish to seek reappointment.

Mr. Wade is a knowledgeable leader with skills in complex technology applications and strategic business initiatives. His extensive experience in information technology management, government financial management, contract management, acquisitions, logistics, and operations management will undoubtedly serve DPC well.
